Education

Aptech Computer Education	Nov 2020 – Aug 2021
. Front End Web Development.	
Zuri	Mar 2022 – Aug 2022
. Full Stack Web Development.	

Skills

I'm proficient In: Django, React.js, Python, Django Rest Framework, JavaScript, PostgreSQL, JQuery, Git/Github, WordPress, Html5, CSS, and Bootstrap.

Professional Experience

Software Developer Contractor   Aug 2022 till Date
Full Stack Developer

• I'm currently working as a contractor who builds web applications for clients, I collaborate with UIUX designers, DevOps engineers, and other personals to bring applications to live. I've worked with a number of clients from different aspects of business, my quality work, time management skill, and communication skills have kept them coming back and referring more clients.

HNG Internship   Oct 2022 – Dec 2022
Frontend Web Developer Intern

• I interned with HNG during the 2022 cohort. During the internship, I was able to sharpen my frontend skills, I improved my team work skills at a very high rate. Interns were paired into teams, and my team was able to come up with an AI that converts audio podcasts into video formats. The user uploads a recorded podcast, and our AI generates a video of animated talking heads that matches with the podcast uploaded. My contribution to the project was great, I fetched and integrated two of the endpoints provided by the backend developers, I also built some external pages designed by the UI designers.

Zuri Internship   Mar 2022 – Jun 2022
Full Stack Web Developer Intern

• I interned with Zuri during the first cohort, 2022. The internship was designed to eliminate interns as it progresses. At the final stage of the cohort, I was paired with a team, I and my team members came up with a live web application that software developers can visit to copy and download authentication functionalities in various frameworks. I wrote all the models rendered to the database and created some functionalities for the backend. I also worked with the frontend developers to integrate the backend functionalities with the frontend design.

Rootbuoy Digital Services
Dec 2021 – Aug 2022

Frontend / WordPress Developer

• I built the client side of web applications projects contracted out to **Rootbuoy Digital**. I brought user interfaces into their live versions. Working with other developers focused on different stacks was great and impactful. Additionally, my presence in the I.T department also sped up the delivery and the quality of projects Rootbuoy Digitals delivered to its clients at an impressive rate.

• I built amazing web applications using WordPress at **Rootbuoy Digital**, my coding skills also contributed to my proficiency with this tool. During my stay with the brand, I managed all the web applications built with WordPress and I delivered a great Job. I also managed to impact some of my colleagues with this knowledge during my stay with the brand.

Projects

Meal-Tab
The Meal-tab web application, enables the users to order their favorite meals online, pay for the meals online and get them delivered to their preferred destination, the application also has a feature that enable users to book a table. Additionally, users can reserve chefs for an event they might be looking forward to host.
• Live at : meal-tab.onrender.com

Technogies:

• Html5, Javascript, Bootstrap, Django, CSS, Jquery, PostreSQL
My Contributions:
• Developed the full project

Auth_Wiki
A library that contains various authentication feature codes for developers. The main objective of the project is save developers from the stress and hours of coding authentication functionalities from scratch.
The project was assigned to my team during the Zuri Internship, and we came up with a very great solution.
• Live at : auth-wiki-team7.onrender.com

Technogies:

• Html5, Ajax, Javascript, Bootstrap, Django, CSS, Jquery, PostreSQL
My Contributions:
• Created the models rendered to the database
• Created comment and reaction functionality that enables users to give feedbacks and reactions to each library
• Integrated the frontend design with the backend.
